## 70% cap rule

To ensure the strength and profitability of our business plan, commission payments are subject to a 70% cap rule. bHIP pays up to 70% of eligible commissionable volume generated over the lifetime of the plan. Should the projected commissions for any week exceed 70% of the current commissionable volume, bHIP will dilute Team bonus payouts for all members to stay in line with our stated limits. All of our members will experience this dilution at the same rate and proportion.

Neither past nor present commission payments may exceed the 70% threshold, no exceptions. The 70% Cap Rule applies to all commissions of all pay cycles.

bHIP realizes how important it is for our members to receive their full payouts, and we have taken certain safeguards to prevent the above scenario from happening. When possible, any excess monies are retained to ensure that we need never reduce member commissions.
